Medtruva

Research-grade peptides · Documented purity · Every lot verified

SAMPLE CERTIFICATE OF ANALYSIS

Document format v1 · Generated 2026-11-01

SAMPLE DOCUMENT — LABORATORY VERIFICATION IN PROGRESS, RESULTS NOT YET ISSUED

TESA+IPA (Tesamorelin + Ipamorelin)

Research compound · For laboratory research only · Not for human or veterinary use

PARAMETER	RESULT
Product	TESA+IPA (Tesamorelin + Ipamorelin) (SKU MT-TESA-IPA)
Lot / batch number	Assigned at first production run
Analytical methods	RP-HPLC (purity) · LC-MS (identity)
Purity	Pending lab verification
Identity	Pending — mass confirmation by LC-MS
Appearance	Pending
Testing laboratory	Independent third-party laboratory
Report date	Pending

About this document

This is a sample certificate. Every Medtruva lot is tested by an independent laboratory for identity and purity before release. Testing for the launch lots is currently in progress. This sample shows the certificate format and the parameters reported for every lot; it will be replaced by the signed laboratory report, including chromatograms and lot-specific results, before ordering opens.

Until the signed report is published, no purity or identity claim should be inferred from this document.

How to verify a lot

Enter the lot number printed on the vial label at medtruva.com/lot-lookup to retrieve the current certificate for that lot, or email support@medtruva.com with the lot number.

For laboratory research only. Not for human or veterinary use. This document does not constitute medical advice or a statement of suitability for any purpose.
